

manna

A wine Story.

An interesting tale about a small fruit that has made its way all over the world...been lost & found, been adopted and renamed--sometimes investigated by scientists using DNA. It is a story that many of us have grown to love and continue to pursue understanding how it becomes what it is during a most remarkable journey and how a few (extremely insane individuals) examine this phenomenon in great detail and attempt to know as much about dirt, climate, fermentation, aging, vintage and a host of other portions of estoric information. I am one of those people.

Turley Wine Cellars, Templeton, CA

Turley Wine Cellars was founded in Napa Valley by former ER physician, Larry Turley in 1993.

Under the direction of winemaker Tegan Passalacqua, Turley makes historic wines from over 50 vineyard sites across California some vines dating back to the late 1800's. Arguably one of the most recognizable names in the industry,

Turley, remains a standard in the wine world and we are proud to cellar these varieties.
